TECHNOPOWER**

Engineering Your Electrical Needs!

**Your Trusted Partner for
Design • Supply • Installation • Testing • Commissioning
Of Electrical Infrastructure Project**

Illumination projects | Electrical EPC projects | Solar power projects

Better Visibility. Greater Control. Faster Delivery

Follow-ups don't drive progress — right execution does.

Engineering

A robust design system ensuring safe, **reliable performance** with **minimal maintenance** over its lifetime.

Procurement

A process-driven procurement system with stage-wise tracking, quality checks, and timely delivery, **Fully Time Bound**.

Construction

A dynamic project management system ensuring precise step-by-step tracking, **on-time delivery**, and continued reliability through the **Defect Liability Period (DLP)**.

ENGINEERED EXECUTION CONCEPT TO COMMISSIONING

High Mast Lighting

- *Foundation design & structural execution*
- *Quality-inspected procurement & erection*
- *Site testing & safe commissioning*

Street Lighting

- *Lux-based layout & civil works*
- *Cabling, installation & field testing*
- *Reliably designed electrical power distribution system*

Stadium Lighting

- *Lux level designed to see every minutest detail*
- *Glare-controlled uniform lighting execution*
- *From wattage to quantity we design it all*

Facade Lighting

- *Concealed wiring & weatherproof installation*
- *Programmable control system integration*
- *Lighting design and simulations*

END-TO-END EXECUTION SAFELY DELIVERED

Sub-Stations

- *HT/LT design & site execution*
- *Equipment erection & loop testing*
- *Commissioning with compliance reports*

Industrial Electrifications

- *Power distribution & panel installation*
- *Cable routing, termination & earthing*
- *Pre-dispatch inspection & site testing*

Control & Automation

- *PLC/SCADA installation & integration*
- *Field instrumentation & wiring execution*
- *Factory acceptance & site commissioning*

RENEWABLE SOLUTIONS PROFESSIONALLY EXECUTED

Solar Power Plants

- *On-grid / Off-grid solar power plants*
- *Designed to withstand wind speeds up to 250 km/hr*
- *Engineered for maximum power generation*

EV Charging Infrastructure

- *Civil, cabling & charger installation*
- *Panel integration & load balancing*
- *End-to-end testing & commissioning*

Battery Energy Storage (BESS)

- *BESS installation & BMS integration*
- *Safety compliance & quality checks*
- *System commissioning & performance validation*

Solar LED Lighting

- *All-in-one solar LED street lights*
- *Semi-integrated solar LED street lights with adjustable panels*
- *Equipped with motion sensors and MPPT technology*

OUR SUCCESSFUL PROJECTS

TRANSRAIL LIGHTING LIMITED 2.8 MW Ground Mounted Solar Plant

-  **Location** : Shahbad, Haryana
-  **Client** : Transrail Lighting Limited
-  **Scope** : EPC - Design, Supply, Installation & Commissioning

Ensured stable & uninterrupted solar power generation with reliable system performance.

IOCL PANIPAT POLYMER TERMINAL Electrical Works for Polymer Terminal

-  **Location** : Panipat, Haryana
-  **Client** : Indian Oil Corporation Limited
-  **Scope** : Supply, Installation, Testing & Commissioning

Delivered dependable electrical infrastructure to support continuous terminal operations.

BPCL MUMBAI REFINERY CCMS Based Highmast Lighting system

-  **Location** : Chembur, Mumbai
-  **Client** : Bharat Petroleum Corporation Limited
-  **Scope** : Supply & Installation

Improved visibility and operational safety in critical refinery zones.

IOCL PARADEEP TERMINAL Automation Cabling for IPH pumps

-  **Location** : Paradeep, Odisha
-  **Client** : Indian Oil Corporation Limited
-  **Scope** : Engineering, Cabling & Installation

Ensured reliable system connectivity for uninterrupted industrial operations.
